Back in River. A rescue work of considerable magnitude is under way in the Big Lost

River valley, Idaho, where L. C. Jones, assistant chief deputy in the state field and game department, is discting the seining of the Big Lost River Land and irrigation company's canal for trout, which are taken to the river proper and there deposited. The canal was built about two years ago, and fish acreens should have

been provided at the head at that time, it is said, but it seems that this has never been done, with the result that it was feared that great quantides of trout would be lost when the waters of the canal began to diminish, The action of Mr. Jones and his acstatants in securing the fish alive and returning them to the fresh and lasting waters of the main stream may

It will be recalled that the waters in the canal are carried through a mountainous country in some sections, and that in coming down to the lowlands abrupt drops of from 15 to 20 feet are encountered occasionally. These the fish go over, and of course are unable to return. To prevent the members of the finny trabe from being carried to the fields and waste places where death would be inevitable, the work of seining the canal has been inaugurated. Reports are to the effect that the efforts of the rescuers are proving highly productive of results.

BEARISH SENTIMENT. Due to Monetary Uncertainties and Lack of Buying Power.

New York, July 11.—Trading in stocks today was not productive of very definite results, the movement consisting of alternate decilnes and railies, with more or less hesitation at the end. The day's general news was cheerful, embracing additional encouraging crop-divices from the northwest, despatches om the leading steel centers an ouncing that no cessation is shown in rders, and statements from railroad officials in the far west pointing to the probability of a car famine because of the increasingly heavy tonnage.

Aside from fresh weakness in coppers, foreign news was encouraging, although some anxiety is felt at the heavy liquidation now preceeding in heavy liquidation now proceeding in the Paris market. There are intima-tions that the selling is not remotely related to tension in the European po-litical situation, which is intensified by the efforts of Italy and Turkey to make new war loans in the French money markets. MEREDITH A BOY WONDER. 19 Year Old Winner of 800 Meter Olympic Race Has Sensational Career.

The name of James Edward Meredith will in all likelihood go down in history as the hero of the Olympic games of 1912. This 19 year lod youngster, who is practically new to athletics outside of schoolboy circles, not only won the 800 meter race at Stockholm, but he hung up a new world's record for the event, covering the distance in 1 minute 51 8-10 sec-onds. Not only that, but he deteated Mel Sheppard, the man who was the hero of the Olympian games in 1508. Sheppard was second man, right at

eredith's side.
Meredith lives on a farm at Media Pa, but he isn't a farmer. He was a student at Mercersburg academy all last team preparing to enter the Uni-versity of Pennsylvania next fall. Pre-

Meredith didn't sustain a single de-feat during the scholastic season. He ran at 120, 440 and 880 yards, and but ceraburg a new record for the race.
From that time on Meredith showed rare speed. At the Princeton Interscholastic games this spring he ran 440 yards in 49 L-5 seconds, three-fifths of a second faster than was ever

he did a quarter mile in 48 4-5 seconds, the same time that the late John B .Taylor made, and came back with 1 minute 56 seconds for the half mile.

When Meredith went to Boston for the Olympic tryouts he found himself up against fast company, but even at that was benten out only by Shep-pard, who was obliged to bring into
